

Extension: Causal Effect of Intergroup Contact on Exclusionary Attitudes

Gabe Walker

February 27, 2018

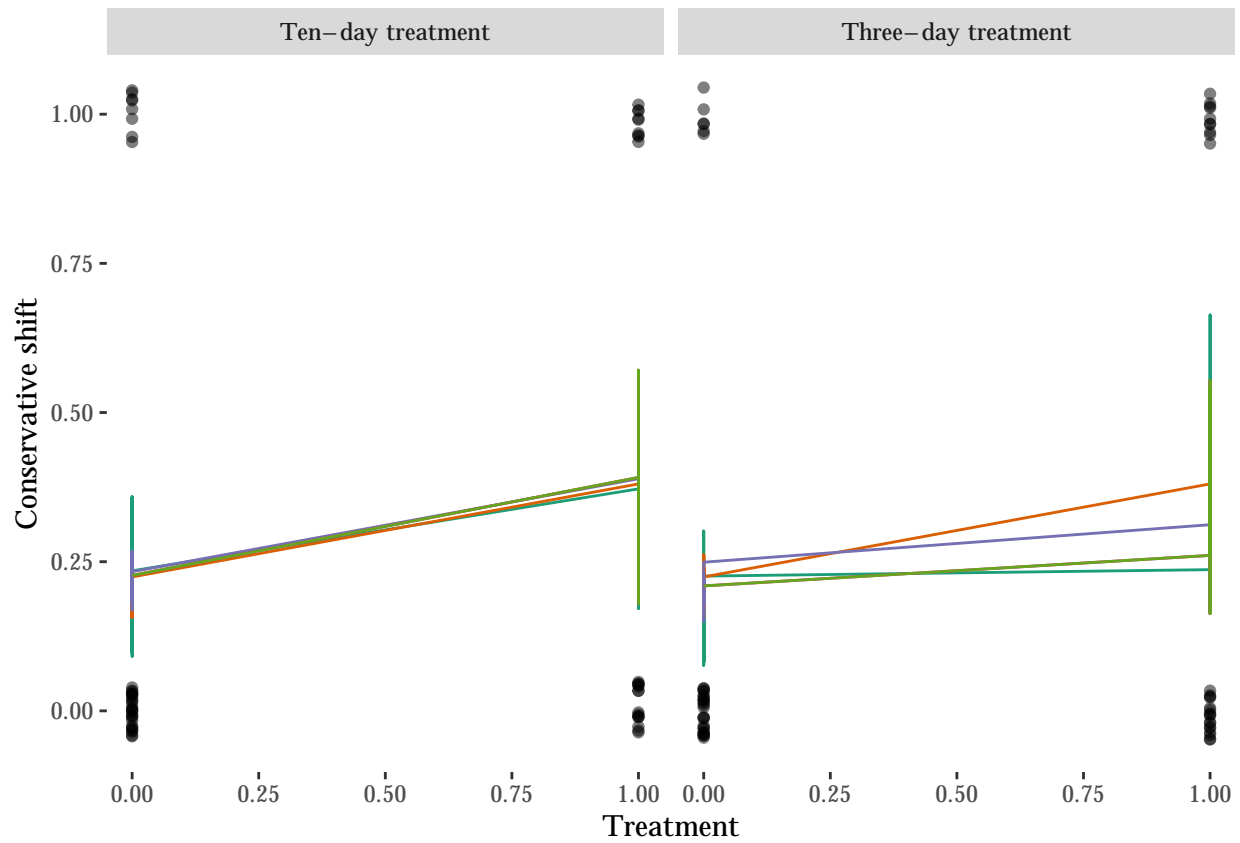

Table 1: Logistic regressions of treatment on conservative shift with fixed and mixed effects

Model	Intercepts	Treatment
Treatment w/ FEs for group, line, and demographics	-0.2749070	0.7942947
Treatment w/ train car random effects	0.2086169	0.1741167
Treatment w/ varying treatment effects within train cars	0.2270110	0.1787102
